What to expect during your session
at Kara Powell Photography.

Welcome to Kara Powell Photography!

We want to be your family's photographer! Your family's portrait history is a lasting treasure to be shared through the years and generations. From maternity and newborns to family portraits, allow us the privilege of telling the story of your family through portraiture.

I love what I do. The love your family shares is why I do what I do. As a fellow mom, I know how important our children and families are to us and how fleeting the time is. I'm looking forward to capturing your special moments in portraits you'll cherish.

Family Session Consultation

Before your session we'll have a consultation to talk about clothing options, locations and the feel you would like your images to have. This can be done over the phone, by skype, or in person. When you share your expectations and what you'd like from your session with us, we can make sure you get what you're looking for!

When it comes to your session, we want you to feel comfortable and knowing what you can expect from your session is part of that. Sessions generally last between an hour and 2 hours.

Your Session Time

When it's time for your session you can relax and enjoy this special time. Your children will take your lead, so let's play and have fun!

To ensure we won't have to rush your session, please arrive 5 to 10 minutes early, especially if we are doing your portraits outside. We're often dealing with sunlight, so we have limited time.

TURNING THREE

I remember vividly when her mom called with the news. She was afraid of what to expect when LA arrived. The doctor's didn't know much until she arrived and of course they always tell you to expect the worst. So we planned on doing nothing until we knew. And I told her that I would pray for the best. Pray that LA would be a spunky, perfect little girl would live a normal life like all of her friends.

And what do we have now? OMG! Spunky to say the least! She isn't a normal little girl, but normal is boring, right? This little Heart Warrior is amazing. She is about to turn three and I am so proud to have followed her all along the way. I have seen her go from a blue little newborn in the hospital who couldn't keep things down, to breaking out of the hospital, and now she is surpassing all odds again.

Medicine is freaking amazing! Texas Children's saved this sweet ones life and will continue to. I know her sweet family is very grateful to them. As is everyone who meets LA.

Happy birthday, Miss LA. We are so happy to be a part of it!

Sneak Peek

Soon after your session we will be sending you an email letting you know your sneak peek is up on the blog and Facebook page. I will sometimes post extra images on my Instagram feed, so it is always a good idea to follow me there as well.

It will be just a glimpse into your session. Just enough to let you know that your images are going to be amazing and that we captured something spectacular! I usually post my favorite image, which is not necessarily going to be your favorite or the best image from the session. It is usually artsy and fun with a little story from the session.

Your Full Gallery

When you book a premium session with us, you are going to be happily overwhelmed by how many beautiful images you get.

This is just a sample of one gallery. Usually there are well over 40-50 images in a gallery. It is a great opportunity to get images of mommy and me, daddy and me, the whole family, and each child separately. Or even the entire family if you are doing an extended family session!

Annual sessions are so important because they show how much children are growing each year.

Ordering Session

About a week after your session, we'll get together at our studio for your ordering session. This is your opportunity to view the images we've created and to order the ones you wish to own. Client Testimonials

"I had never had professional pictures done and felt it was time to get them done with my oldest graduating high school and the recent loss of my mom. After looking at several photographers and their work I decided on Kara. I'm so glad that I did. Kara made the process so easy. She was so helpful and patient.

During our shoot she was amazing at choosing locations and just capturing the love of our family. She made sure we were completely happy with the session before we called it a day.

Our session was amazing and I have never been happier with a service! I honestly had tears just looking at all of the amazing images she captured. I would recommend, and have recommended, Kara to many people. Everyone who has had the pleasure of viewing our images from our sessions has been amazed with them and I have received so many compliments. We will be clients of Kara for life!"

- Casey, Client since 2019

"Kara has been taking pictures for our family for 9 years! Each and every session has been a unique experience and has resulted in treasured images that we could never hope to capture ourselves. Kara takes the time to collaborate and customize each experience.

My parents, siblings and I traveled from Cyprus, Australia, and Louisiana to take our 1st family pictures in 25 years with Kara. When my husband and I learned that we were expecting, we took our maternity and newborn pictures with Kara. Our son's annual birthday picture sessions have become something of a legend—he's taken pictures on a train, in a private airplane, in Maclaren cars, on construction equipment.

We were transferred on business assignments to Canada in 2019, and we traveled back to Houston specifically to take our family and Santa sessions with Kara. That is how much we appreciate Kara. We've shared our ideas, wishes, hopes, and Kara has made these sessions all we could ask for and more!"

-Kellie, Client since 2011

We pride ourselves on being a family. Most of our clients become clients and friends for life who we get to see multiple times a year.
